

YEAR 3 CLASS NEWS

Term 3 has been a blast so far with such a busy start! We have had our Under the Stars Night, Catholic Education Week with a combined schools Mass, a visit from Michael Mangan, Rodeo Dress Up Day and an exciting visit from some young dinosaurs. With so much more to come, the rest of the year is sure to fly by!

In English this term, we are learning to write information reports. We have been looking at the correct structure and language features to create an informative text.

In Science, we have been looking at heat sources. The class has been working on identifying a heat source and then categorising it into burning, electricity or friction.

In Digital Technology, we have been building our skills and knowledge of creating sound structures using various materials by completing STEM activities. At the end of the term, students will work in teams to apply their knowledge to create marble runs.

In Visual Arts, we will be using modern techniques and symbols to create our own Aboriginal-inspired contemporary artwork. Leading up to this we have already been looking at various Aboriginal art works and symbols.
