

Year 2 Class News

We have had a wonderful start to the year in our class. The students are settling into our new class routines with eagerness and enthusiasm. We are well underway in all of our units of work and are very excited for the year ahead!

In **Maths** we are exploring 3-Digit numbers, skip counting and numbers more and less. We created our very own number monsters as well as more/less number robots.

In **Health** we are learning all about safety and we had the privilege of having a special visitor (Mr Leo) come and teach us about electrical safety.

In **Science**, this term we have had special visitors (Mealworms) as we observe the life cycle of a mealworm. We have made predictions and some interesting answers came forth. The predictions ranged from a pupa to a butterfly all the way to a whale! Students can't wait to see what happens.

Thank you to all students and parents for making the start of this year a delightful and rewarding experience. I look forward to what excitement the rest of the year brings.
Kind Regards, Telana
